Game Development with Python

CoderDojo Bray

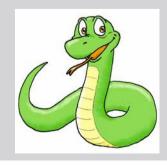

Setup – check!

- Have you got these installed/downloaded?
 - Python 3.x.x
 - Pygames (not required this week)
 - "Invent Your Own..." eBook
- Do you know where these are?
 - IDLE (Python GUI)
 - Python Folder
 - The eBook

Hint: Put shortcuts on your Desktop or Taskbar!

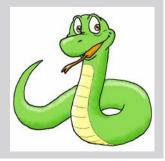

Session #1 What will you do today?

- Play with Python
- Look ahead to Projects
- Learn about some of the boring stuff....
- Learn about some of the fun stuff!

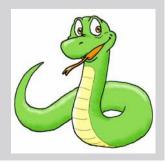

But first...

- Some "Teaching" but mainly...
- Self Learning
- Working together & Peer Mentoring
- "Ask three before me"
- Pythonning between Dojos

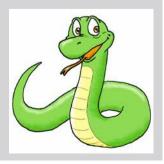

Projects

- Start thinking/planning/dreaming...
- <u>coolestprojects.org</u>
- Coolest Project Presentation
- Project Planning Template

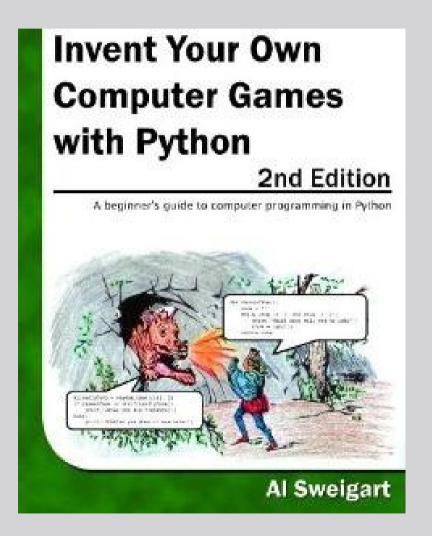

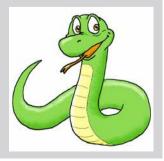

Why Python?

- "Proper" programming language
- Readable
- Elegant
- Open Source
- "Batteries Included"

Now...

Resources – CoderDojo Bray

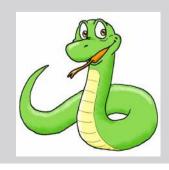

General info about the Dojo

- <u>coderdojobray.com</u>
- @CoderDojoBray
- bray@coderdojo.com

Resources - Python

- http://python.coderdojobray.com/
 - Still under development
- Websites
 - http://inventwithpython.com
 - Search for "Python Tutorials" or similar
 - Beware of "Easy..." and earlier versions of Python
 - Some URLs are included in Shared Folder
- Between Dojos
 - We hope to have the Forum open soon
 - Shared Folder http://bit.ly/DojoPython

Next Week ...

- Review what we've done on the book and, if you wish, look ahead at further topics
- Dream about your Project
- Look at other resources online
- Keep watching the email for further info
